EDUCATION

University of California, Irvine

Irvine, CA

Bachelor of Science in Computer Science

Expected Graduation: June 2027

- 3.26/4.00 GPA
- Relevant Coursework: Data Structures, Database Management, Artificial Intelligence, Computer Organization, Information Retrieval, Software Engineering, Human-Computer Interaction, Linear Algebra, Discrete Mathematics

EXPERIENCE

Projects Committee Software Developer

November 2024 – Present

Information & Computer Science Student Council (ICSSC)

Irvine, CA

- Contributing to PeterPortal, a web application for discovering and scheduling courses at UCI
- Participating in code reviews and pull requests, using good practices when collaborating
- Redesigning the UI/UX of several features, such as renovating course reviews and the inputting of AP exams
- Collaborating with and contributing to other ICSSC projects to improve overall student experience

Research Assistant

November 2024 – Present

Humanity Unleashed

Remote

- Contributing to research project to build web app to aid lawmakers in decision-making using custom LLMs
- Designing endpoints for a RESTful API for communication with a MongoDB database
- Creating a MongoDB database schema to ensure proper data management for all features of the project

Summer Research Connection Intern

June 2022 – August 2022

California Institute of Technology

Pasadena, CA

- Collaborated with professors on research project to designed a better way to display astronomical data
- Generated a view of the Milky Way Galaxy by combining overlapping images using IPAC's image mosaic software
- Created a 30-second video of the mosaic, programmatically adding visual effects to help explain images

PROJECTS

LeetCode Calendar | *React, Vite, TypeScript, Tailwind CSS, GraphQL, Resend*

March 2025

- Created a chrome extension that shows a user's LeetCode submission history every time they open a new tab
- Calls LeetCode's GraphQL API to fetch users' profile information, the parses data to fill calendar
- Users can customize their username and time range, and submit feedback through Resend's react-email

UCI App Catalog | *React, Next.js, TypeScript, Tailwind CSS, Vercel, Resend*

February 2025

- Created a catalog of UCI-related applications, making it easier to find useful projects to make life better at UCI
- Allows users to view information on projects, search and filter for websites, and save their favorite apps
- Configured email notifications for when a user requests to have a new website added to the catalog

Marlin | *React, Vite, TypeScript, Tailwind CSS*

October 2024

- Created an LLM-powered chrome web extension that detects phishing attacks in emails
- Designed and implemented the web interface of the extension popup, ensuring a concise overview of risk assessment
- Won the Cybersecurity track out of 300+ participants at LA Tech Week 2024's Cerebral Beach Hacks

TECHNICAL SKILLS

Languages: Python, C++, JavaScript, TypeScript, HTML/CSS, SQL

Frameworks: Node.js, React, Next.js, Vite, Tailwind CSS, Sass, React Native, Expo, FastAPI, Drizzle

Developer Tools: Git, PostgreSQL, GraphQL, Vercel, Resend
